

UT Risk Rating Revision (updated as of 25 October 2018)

- 1 = low risk. Minimal chance of losing a significant portion of your capital over the term of the investment (although this is not guaranteed). Expected to demonstrate minimal price fluctuations over short periods of time.
 2 = low to medium risk. Low chance of losing a significant portion of your capital over the term of the investment (although this is not guaranteed). Expected to demonstrate moderately low level of price fluctuations over short periods of time.
 3 = medium risk. Moderate chance of losing a significant portion of your capital over the term of the investment (although this is not guaranteed). Expected to demonstrate moderate level of price fluctuations over short periods of time.
 4 = medium to high risk. Moderately high chance of losing a significant portion of your capital over the term of the investment. Expected to demonstrate moderately high level of price fluctuations over short periods of time.
 5 = high risk. High chance of losing a significant portion of your capital over the term of the investment. Expected to demonstrate high level of price fluctuations over short periods of time.
