

ESG reporting made easy with diginex

Government regulations setting mandatory rules for ESG disclosure and standards have nearly doubled in the last five years and independent verification of ESG reporting will be ever more in demand. At HSBC, we recognise that the need to disclose and report ESG performance is emerging for an increasing number of clients. We are committed to connecting you to market-leading solutions that will enable you to transition to a more sustainable business model.

As part of this effort, we have partnered with diginex, a leading technology company that provides ESG tracking and reporting solutions. With simple, easy-to-use reporting tools, diginex can help you comply with regulations, get ahead of disclosure and reporting requirements, and satisfy the expectations of investors, employees and other key stakeholders. Critically, it can help you understand how to leverage ESG performance and indicators to gain a business advantage – so you're doing the best thing for your business and for the planet.

Benefits of ESG reporting

Credible ESG reporting and disclosure can help your business:

Appeal to investors
and attract capital

Stay ahead of
regulatory requirements

Build reputation
and trust

Manage risks stemming
from ESG issues

Create competitive
advantage

Generate positive
impact on the planet

“One of the biggest differences it has made was collecting the information in one place, which allowed us to be more focused. Diginex are great to work with and their support is helping us on our ESG journey.”

Angela Eman, Group Director of ESG, Inspecs Plc
